

SIVA KUMAR R

Chennai, Tamil Nadu, India | [Email](#) | [LinkedIn](#) | [GitHub](#) | [Portfolio](#)

PROFESSIONAL SUMMARY

Third-year B.E. Computer Science and Engineering student and Founder & CTO of Sparklance Solutions with hands-on experience building and deploying production websites, mobile applications, desktop applications, automation systems, and research prototypes. Strong foundation in Python and Java with practical experience across web development, Android development, databases, APIs, payments, data processing, and cloud deployment. Experienced in translating requirements into maintainable software through system planning, implementation, debugging, integration, and deployment.

EDUCATION

B.E. Computer Science and Engineering | Panimalar Engineering College, Chennai | 2024–2028 (Expected) | Third Year — Currently Pursuing

EXPERIENCE

Founder & CTO — Sparklance Solutions | 2025–Present

- Lead end-to-end software delivery from client requirements and product planning through development, deployment and maintenance.
- Coordinate web, mobile and cloud implementation while using AI-assisted development to accelerate coding, debugging and feature integration.
- Manage production deployments, technical decisions, client delivery and ongoing improvements across company projects.

Java Programming Intern — InternPe | Jun 2026 – Aug 2026 | Remote

- Completed an AICTE-approved 3-month Java programming internship covering Java fundamentals, OOP and Java Swing application development.

Application Development Intern — Codec Technologies India | Jan 2026 – Feb 2026 | Hybrid

- Completed an AICTE-approved 2-month structured training internship focused on mobile application development and practical app-building fundamentals.

Python Programming Intern — InternPe | May 2025 – Jun 2025 | Remote

- Completed an AICTE-approved 2-month Python programming internship with hands-on Tkinter projects and Python class-based programming.

SELECTED PROJECTS

DHVIKA BY LR | E-commerce • Android • Payments • Analytics [Live](#)

- Built and deployed a production fashion e-commerce platform with a companion Android app, integrating online payment and business analytics workflows.
- Implemented responsive customer-facing features and production deployment for a live client business.

Seventh Frame Pictures | HTML • CSS • JavaScript • GSAP [Live](#)

- Designed and deployed a cinematic production website with interactive visual presentation and animation-focused frontend experiences.
- Delivered the production site without a backend, focusing on responsive UI, transitions and media presentation.

M.O.N.I.C.A. | Python • Telethon • Ollama • Userbot [GitHub](#)

- Built a Telegram personal-manager userbot with local AI integration and persistent memory/data storage, without relying on an online AI API.
- Implemented automation-oriented conversational functionality around a customizable assistant workflow.

Crop Health Triage | Android • Web • Machine Learning [GitHub](#)

- Developed and trained a two-stage image classification system: verifies whether an input is a leaf, then identifies the disease when present.
- Supports image capture/upload through Android and web interfaces; the current system is not live.

Adaptive Multidirectional Crowd Risk Fusion (ABCRF) | YOLO • ByteTrack • ConvLSTM • Crowd Analytics

- Developed a multidirectional crowd-risk research pipeline using 10 YouTube videos for crowd feature extraction, risk fusion and sequence-based prediction.
- Research paper approved for submission; paper has not yet been submitted and the project repository is not public.

TECHNICAL SKILLS

Programming: Python, Java, HTML, CSS, JavaScript, PHP, SQL

Application Development: Android, Android Studio, Tkinter, Java Swing

Web & Backend: Frontend Development, Backend Development, Firebase, Firestore, Flask, FastAPI

AI / Data: PyTorch, YOLO, ByteTrack, ConvLSTM, Scikit-learn, Pandas, NumPy, Matplotlib, Seaborn, GeoPandas

Payments & Cloud: Razorpay, Google Analytics 4, Meta Pixel, Cloudflare Pages, Netlify, Render, MilesWeb, GoDaddy

Tools: Git, GitHub, VS Code, GSAP, Telethon, Ollama

CORE STRENGTHS

Requirement Analysis | System Planning | Application Development | Debugging | API Integration | Database Integration | Deployment | Technical Problem Solving
